SUPPLEMENT TO  
REPORT NO.

CONFIDENTIAL

25X1X

1. About 14 kilometers from Pitesti, on the Pitesti-Curtea de Arges railroad line several fuel storage tanks are located. These tanks are located about 200 meters from the Merisani railroad station, near a sidetrack about 20 meters from the main line. The vertical pipes over the tanks are used to unload the fuel from the tank cars. Military convoys frequently refuel here.
2. A new 10,000 volt electric line is being built from Moroieni to Sinaia and Valea Larga and is to be connected to the Sibiu-Bucharest line.

This document is hereby regraded to  
CONFIDENTIAL in accordance with the  
letter of 16 October 1973 from the  
Director of Central Intelligence to the  
Archivist of the United States.
